Comments on N2021-1

To: the Postal Regulatory Commission

Please examine carefully the current proposed 10-year plan on our USPS, and please correct or reverse any 2020 changes that almost crippled mail services for seniors, RX businesses, personal businesses, and mail-in voting. The intent is obvious (reduce mail-in ballots), despite the flagrant impacts associated with slowing down USPS services.

Why must USPS be a profit center? The military is not. The veterans' administration is not. NASA is not. USPS is a nationwide service specified in our Constitution that hundreds of millions depend on. Yes, cost-cutting efforts are always appropriate to review, but never at the risk or expense of crippling what Americans have grown to depend on. Please tread carefully with any plans from the guy who has a financial and political incentive to destroy our USPS system.

Thank you for your consideration, and your service.

Charles (Wayne) Urton
